

Receiver Protectors

Receiver Protector Description

(It is possible to type directly on this form. The cursor will change shape at each data entry point.)

MIN

MAX

UNITS

Electrical

- * Frequency
- * Peak Power (Overload)
- * Peak Power (Normal Operating)
- * Pulsewidth(s)
- * Duty Cycle
- * Leakage Power:
 - Spike
 - Flat
- * Recovery Time
- * Insertion Loss
- * VSWR
- * Phase Matching (if required)

Multifunction Capability

Variable or Programmed Attenuation -- Specify amount, type, control method, available bias supplies, etc.

Excess Noise Generator -- Specify amount, control method, etc.

Mechanical

Overall Size
Connectors
Transmission Line

Environmental

Internal Waveguide Pressure
Operating Temperature
Altitude
