

# High Power Attenuators

## Communications & Power Industries High Power Attenuators

CPI Beverly Microwave Division has extensive experience in the design and development of integrated microwave assemblies. Each integrated design uses a mixture of electrical and mechanical design tools to optimize the performance, weight, heat transfer and mechanical stability under harsh environmental conditions. Each design utilizes proven technology to develop a custom module around a customer's requirements.

With a history of producing high quality products, we can help you with your high power attenuators.

Contact us at [BMDMarketing@cpil.com](mailto:BMDMarketing@cpil.com) or at call us at +1 978-922-6000.

### FEATURES:

- Frequencies: Available in L, S, C, X, Ku, Ka Bands
- High power capabilities
- Low insertion loss
- Digital/Analog control
- Linearized RF attenuation
- Fast switching time

### BENEFITS:

- Integration of limiter functionality as needed
- Integration of out of band filter rejection
- Available with waveguide or coax interfaces

### APPLICATIONS:

- Missile seekers
- Airborne radar and EW
- Unmanned aerial vehicles (UAV)
- Ground based systems
- Naval radar
