

Available now from CPI: **700 Watts, 24.75 to 25.25 GHz**

BSS Reverse Band ELK

RF and Electrical

Frequency	24.75 to 25.25 GHz
Bandwidth	500 MHz
Output Power	700 W
Gain	45 dB
Beam Voltage	7.5 kV
Beam Current	500 mA

Benefits:

- Designed specifically for BSS Reverse band uplinks
- Compact, rugged design
- Field-proven MTBF: 100,000 hrs
- Delivers unparalleled performance and reliability
- Backed by CPI's industry-leading global customer support network
- CPI technology powers today's most advanced fixed and mobile digital RF links from 1.7 to 220 GHz
 - Solid State RF Modules
 - Classic and MSDC Klystrons
 - Extended Interaction Klystrons
