CPI RECEIVES SIGNIFICANT CONTRACT TO SUPPORT INTELLIGENCE, SURVEILLANCE AND RECONNAISSANCE PROGRAM FOR U.S. GOVERNMENT

Plano, Texas - October 13, 2026

Communications & Power Industries was recently awarded a multimillion-dollar contract to support an intelligence, surveillance and reconnaissance (ISR) program for the U.S. government. CPI will deliver a cutting-edge antenna system that integrates a sophisticated quadband radio frequency (RF) design with a multi-motor drive architecture on each axis.

A CPI antenna in Kilgore, Texas

This complex antenna system brings together CPI's extensive expertise in RF engineering, motion control and system integration to meet demanding mission requirements. It relies on the company's experience as a major global supplier of reliable large-aperture antennas for 50 years. CPI's installed base includes hundreds of ISR antennas ranging from small tactical and transportable systems to large-aperture antenna systems that exceed 30 meters in diameter.

"This award reflects the trust government customers place in CPI as a proven supplier of ISR solutions," said Jamie Clark, president of CPI's Antenna Technologies division.

"We are able to draw on decades of technical knowledge and authority to meet the evolving requirements of modern ISR missions and to deliver dependable and affordable solutions that enable our customers to gather critical intelligence and act with confidence. We appreciate the opportunity to support our government customers on such critical programs."

About Communications & Power Industries

Communications & Power Industries (CPI) is a global manufacturer of small, medium and large aperture antennas, components and systems focused primarily on defense and communications markets. CPI's advanced technologies and systems power critical government and commercial applications worldwide, ensuring reliable performance in demanding environments.
