Proper Completion of This Form is Vitally Important to the Prompt and Efficient Handling of Product Warranty Claims.

I. This claim form, properly completed, must accompany any returned Product and be received by CPI Microwave Power Products (MPP) prior to expiration of the adjustment period. Compliance with this requirement assures the user of the most prompt and thorough service possible. A Product returned within the adjustment period, but without the completed Returned Product Form, will be treated as out of warranty.

II. Complete the following information regarding the Product being returned:

A. Returned Material Authorization No.: __________________________________________________________
   \textit{(Call CPI/MPP Customer Service Department to obtain this number.)}

B. Product Type:
   CPI Part No.: ___________________________ Serial No.: ___________________________
   Customer Part No.: _______________________________________________________________

C. Customer Purchase Order No.: __________________________________________________________
   Date of Purchase Order: _____________________________________________________________

D. Control Specification No.: ___________________________ Dated: ___________________________
   \textit{(Check one)} Document of CPI ☐ Document of your company ☐

E. Contract Warranty (either CPI Warranty Code or specification paragraph):
   _____________________________________________________
   Filament Hours: ___________________________ Warranty Adjustment Began: ___________________
   Adjustment Time: ____________ (months) Expires: ________________

III. Claim is made against warranty based on the following:

A. Specifications(s) not met by the Product (list by specification and paragraph number):
   _____________________________________________________
   _____________________________________________________
   _____________________________________________________
   _____________________________________________________

Verify revision before use.
PLEASE FILL IN FOR FAILED PRODUCTS:

(Place an “X” in the appropriate box to show what variance from normal was seen at the time of product failure.)
